Overview

India is the world's largest source of psyllium (*Plantago ovata*, isabgol), grown mainly in Gujarat and Rajasthan. We supply whole husk, husk powder in 40, 60 and 80 mesh, and seed, with husk purity of 95%, 98% or 99%. Psyllium is sold as husk or powder, not as a standardised extract.

Available forms and grades

Whole husk	Flaky, light-coloured husk in purity grades from 95% to 99%. Preferred for sachets, tubs and blends where appearance matters.
Husk powder	Milled to 40, 60 or 80 mesh. Finer mesh disperses faster, coarser mesh is easier to handle and mixes more evenly.
Seed	Whole Plantago ovata seed for processors who mill or de-husk in their own facility.

Applications

Fibre supplement and gluten-free bakery makers, food and beverage brands, pet-food makers, pharmaceutical fibre products.

Fibre supplements	Sachets, powders, capsules and gummies built on soluble fibre.
Food and bakery	Gluten-free breads, cereals, bars and pasta where it adds structure and moisture hold.
Beverages and mixes	Instant fibre drinks and meal-replacement blends.
Pet and animal nutrition	Fibre ingredient in selected pet and feed formulations.

Buyer notes

Specify purity, mesh, swell volume and bulk density if your product needs them. Ask for pesticide residue, heavy metals and microbiology reports.

We quote a load only after the manufacturer confirms the pack size and the forwarder confirms the container. Wooden pallets must be ISPM-15 heat-treated and stamped, or use plastic pallets. Use a food-grade, clean, dry, odour-free container, with a liner and desiccant for sea freight of spices, seeds and powders.
