Overview

India is the world's largest grower of moringa (*Moringa oleifera*), the drumstick tree. We supply leaf powder in organic and conventional grades, cold-pressed seed oil, seed powder and leaf extract. Leaf powder has no standard marker, so we agree colour, mesh, moisture and microbiology with you. Extracts are made to your polyphenol or flavonoid specification.

Available forms and grades

Leaf powder	Dried leaf milled to a fine green powder. Available in organic and conventional grades for blends, teas, bakery and capsules.
Seed oil	Oil from the seed kernel, used in cosmetics, hair and skin care and as a carrier in personal care formulations.

Seed powder	Milled seed kernel for formulators who want the whole seed rather than the oil or an extract.
Leaf extract	Concentrated leaf extract with polyphenols or flavonoids set as per your specification, for capsules, tablets and drink mixes.

Applications

Superfood and green-powder brands, supplement and capsule makers, smoothie and beverage mixes, food fortification, cosmetic oil buyers.

Buyer notes

Ask for heavy metals, pesticide residue and microbiology reports. Dried leaf powder should be tested for Salmonella. For organic, confirm the certificate for your market.

Before you book

Weight per container depends on bulk density, pack size and whether the cargo is palletised. We quote a load only after the manufacturer confirms the pack size and the forwarder confirms the container. Wooden pallets must be ISPM-15 heat-treated and stamped, or use plastic pallets. Use a food-grade, clean, dry, odour-free container, with a liner and desiccant for sea freight of spices, seeds and powders.
